### Bank Deposits Show Good Gains In Year

Deposits placed with the Hondo National Bank and D'Hanis State Bank increased noticeably during the past 12 months, a check of published statements from the firms

The Hondo bank boosted its deposits some \$506,969 over September of 1950, while D'Hanis showed a gain of \$150,540 during the same period.

Total money on deposit at the Hondo National of Sept. 30 was \$4,774,521.73, compared to \$4,267, 551.88 a year ago. Deposits of individuals, corporations and partnerships increased by \$504,836.10, giving a total of \$4,213,013.14.

The D'Hanis Bank has total deposits of \$925,233.34 this year against \$774,693.33 in 1950. Deposits of individuals, partnerships and corporations went up by \$173,

J. H. Burgin, president of the Hondo National, attributed much of the increase to the opening of the Hondo Air Base last July, although he also mentioned good prices for cattle, sheep, and mohair as a contributing factor. Broom corn also brought in a good revenue, he said, even though weather conditions were not as favorable as in many years.

The LaCoste National Bank showed a decrease of \$45,989.34 over a year ago, according to A. P. Parma, cashier. He attributed the decline to the fact that farmers in the area made about half a normal crop. In 1950, deposits were \$2,002,919.25, while this year they declined to \$1,956,

disability pension system for appointive county officials and employees. The system would be similar to those set up by private businesses and corporations. At the present time, county employees are not covered by social security or other retirement plans. Second amendment would allow

state universities to reinvest their permanent funds in additheir permanent funds in additional securities. Leaders of the University of Texas and Texas A&M College have endorsed the plan, and state that is would bring in an additional \$1,000,000 a year if passed. If the amendment does not pass, they say that additional tax money must be obtained.

Amendment three would authorize the creation of rural fire pre-vention districts to maintain fire-fighting equipment.

Funds of the Veteran's Land Board would be increased under the fourth amendment. Additional funds would be made available to veterans to purchase land under the original law of 1945.

The fifth amendment would provide an additional \$7,000,000 from state funds for old age as-sistance, blind assistance and aid to dependent children. Opponents claim that the change would make out-of-state residents eligible, and that the increase would not help present pensioners.

### No War This Year

THE month of September and early October when the harvest is in is the time when the chanceries and general staffs of Europe watch closest for signs of war. If Europe can get by this period of dry, mild weather before winter bogs down an attacking army, they figure there; will be no danger of war at least until June.

Top U.S. officials, likewise, have made all-important surveys of the war possibility, and it is possible for this column to report what their general conclusions are:

1. Russia will not launch World War III this year. However, Russia is expected to continue pressing war by satellites

2. China, not Russia, has been more eager for a truce. The U.S. war study indicates that Russia came cut with the truce proposal chiefly for propaganda purposes; perhaps to stall for time in order to get new arms to Korea.

3. Next step in Communist aggression is likely to be Burma, Thailand, and Indo-China. This area is all-important to the Kremlin if the millions of China are to have rice. Moscow would probably gamble on starting World War III in these countries, though she doesn't actually want it.

4. In Iran the Russians will probably march into the northern province of Azerbaijan and take it by force—if the British go into southern Iran to protect their oil refinery. Here again the Russians are willing to gamble that the west will not go to war over Iran.

5. In Germany, the U.S. analysis does not anticipate a Russian military move, but does foresee a continual army build-up.

### Behind Iron Curtain

Increasing evidence is coming back from inside the iron curtain to show that the freedom-friendship balloons and other activities of the crusade for freedom have really got under the Kremlin's skin.

In east Bohemia, for instance, fields where the balloon messages fell were declared "off-limits" to farm workers by security sections of the national Communist committee. In another section of Bohemia, Communist officials offered rewards to the teams of youth brigades who collected the largest number of friendship leaflets.

Near the Czech-Austrian border, a patrol of border police reported "voluminous flying objects" which might be enemy paratroopers. When Prague got the report, it dispatched tank units amid great excitement.

The flying objects, however, turned out to be pillow balloons with the word "Svoboda"—"freedom"—written on them in large letters. They were bouncing along the ground in the early morning twilight like miniature flying saucers. Inside of them, of course, were friendship messages from the American people to the people of Czechoslovakia.

### Weeding Out Bureaucrats

It hasn't received any publicity, but President Truman has ordered a drastic housecleaning to sweep the drones from federal government. An ultimatum has already gone out to all agencies to clean house or face budgetary and personnel cuts.

'The present emergency has caused great demands on the manpower resources of our country with shortages of manpower in certain special areas already being felt . . . The federal government, as the largest single employer in the country, should set the example. Therefore, I expect the head of each executive department and agency to bring about maximum effectiveness and economy in the utilization of personnel," the President wrote in identical letters to civil service chairman Robert Ramspeck and budget director Frederick Lawton.

Truman ordered them to "request reports from all departments and agencies and conduct regular inspections and surveys so that reports can be made to me on progress in conserving manpower.

"This manpower conservation program should be given top priority throughout the executive branch,"

the President added.

As a result, Ramspeck and Lawton sent a joint ultimatum to all agencies to "take steps to assure the most effective and economical use" of manpower.

### Washington Pipeline

Though she stands aces with new Secretary of Defense Lovett, dynamic Assistant Secretary Anna Rosenberg may resign. She was brought in by George Marshall to cut the waste out of armed services' manpower and has nearly accomplished her mission . . . In a swift week-end operation, Michigan's Sen. Blair Moody and Walter Reuther, of the auto workers, talked defense mobilizer Charley Wilson out of \$800,000 in contracts.

They commented on the friendliness of the people, and Blank said he had no difficulty in conversing with the people in Alsatian, although he and the other members of the party speak English fluently. They marvelled that the farmers did not have to rely on only one crop a year as they do in Alsace. He also noted that some customs

are different. In Alsace, the people drink wine as the play cards; here they drink beer and then play cards.

The group were over-night guests of the Mayor FitzSimon, Ralph Tschirhart, and Joe Hoog. Their plans call for a return to Alsace by Christmas.

NATALIA NEWS

BY E. H. WHITTINGTON

NATALIA-Col. E. H. Green has been ill several days and is in a San Antonio Hospital. Little Don Shoemake, eight year

son of Mr. and Mrs. Bob Shoemake got up before the audince at church on Sunday morning and publicly thanked everyone for their many kindnesses shown him while he was out of circulation with a broken leg caused by fall-

ing out of a swing some time ago.
Mrs. George Mays gave a report on the highlights of the Baptist General Convention at Houston. She was much impressed with the beauty of the auditorium where the services were held, the blending of several thousand voices in song, and the reports from our missionary fields. Other reports gave as impressive the work of the Brotherhood, and still others gave the Womans Missionary Union a very important place. All in all there still remains lots to be done in the field of religion.

Mr. and Mrs. Chester A. Larimore of Canute, Okla. came in over the weekend to be with her parents, Mr. and Mrs. G. C. Murdock, for a while. Mr. Murdock is back home now in a walker gain use of his leg that was broken about three months ago in a car wreck. Mrs. Larimore is staying over with her parents during a part of the convalescense period. Mr. Larimore has returned to Okia. to keep the children

school. H. R. Scott has gone to south Texas to spend the winter with relatives, in the hope of improving his health.

Mrs. William F. Palmer of Clearwater, Florida, is visiting her sister, Mrs. Pearl Mendez. Lieut. Mendez is now stationed at Fort Bliss, El Paso and his family are planning to move out as soon as living quarters can be had.

Mr. and Mrs. Albert Whiteside visited their deer lease near Cotulla over the weekend to make ready for the hunting season.

Mr. and Mrs. Hugh D. Jobe and M.s. Joe Dance visited Hilrey Haws, a patient in Baptist Memorial Hospital, San Antonio, on Sunday afternoon. Mr. and Mrs. E. M. Findley and

children, Jean and Jerry, visited Mrs. Fendley's parents, Mr. and Mrs. John Guthrie of Junction, over the weekend. The Natalia Jr. football team

will play Castroville Nov. 8, at 7:30 P. M. at Castroville. The Natalia P. T. A. will meet Nov. 12, in the high school Gym. Mrs. Raynolds and her F. H. A.

girls will be in charge of the program. The public is invited. J. M. Griggs, route 1, is in hospital at Castroville. He got a fall last week and broke his hip, re-

quiring an operation to reset and tie the bone. He is 72 years of Mrs. Vernie Young and sons of

Sapulpa, Okla., have been visiting her father, P. M. Brazell, over the weekend. George A. Klaus, 32 of San An-

tonio who died last week in San Antonio called on many of the grocerymen of Medina Coonty as salesman for San Antonio Grocery Co. He was known in this territory, especially among the business men.

W. A. Menck had a letter from "Buddy" saying he has just received his first copy of the Hondo Anvil Herald, and had enjoyed it to the fullest, reading every word including the advertisements. Buddy is in the Navy.

N. C. Richey is sporting a new car, and he is justly proud of it. George Meier Jr. has sold his home on Mann road, and has purchased 20 acres on lake road just west of Russell-Crarwford Dairy. Mr. Meier is a retired Army man and is building a new home there.

# Hondo, Poteet Aggies Play Friday

# Owls Stay Undeated With 33-7 Win Over Floresville

The high-flying Hondo Owls, still ranked among the state's dwindling undefeated high school football teams, meet the Potcet Aggies at Barry Field Friday night as the district 28-A race draws to a close.

Hondo will close out against the

**Brackettville Dumps LaCoste** 

The Brackettville Tigers ruined perfect homecoming for LaCoste Ex-students when they ripped the Ex-students when they ripped the Eagles of LaCoste High for a 33-0 count on Eagle Field in LaCoste last Saturday evening. The loss dropped the Eagles from the ranks of a possible district 44-B title contender, and all but awarded the title to the Tigers, who have only to hurdle the Sabinal Yellowjackets to nail down the crown. A good number of former LaCoste students turned out for the homecoming activities and were on hand to cheer the Eagles.

Brackettville in scoring 12 points in the opening period, 14 in the second quarter and 7 in the final period whistled through the bewildered, but game Eagles with ease. The Tigers opening score came early in the opening period as the result of H. Talamantez's intercention of Lecture 1. terception of LaCoste pass on the LaCoste 49 yard line. A clipping penalty nullified Talamentez's touchdown run on the interception but the Tigers scored moments later from 25 yards out when Tala-mantez passed to A. Garza. Talamantez's attempt for the point after from placement was wide.

H. Talamantez was off on a 42 yard jaunt for the Tigers second score as the first period closed. Talamentez's kick was blockde by Mangold and the 1st quarter score was Brackettville 12-LaCoste 0.

Talamantez scored in the second period to climax a 50 yard drive on the first time Brackettville gained possession of the ball in the period. This time Talamantez's kick was good and the score favored Brackettville 19-0.

Brackettville again gained possesion of the ball when a bad center on fourth down set up the fourth Tiger TD on the LaCoste 26 yard line. A pass from H. Talamantez to A. Garza was good for the score. Talamantez again kicked the point after and at the half it was Brackettville 26-LaCoste 0.

The Eagles brighest moments came in the third period when they managed to gain the Brackettville 20 yard line, but they were short lived as Sheedy the Brackettville center intercepted an Eagle pass at that point. The entire third period went scoreless as the ball exchanged hands several times.

A 61-yard march netted the final Tiger score with A. Garza passing to R. Cardenas for the final 13yards to net the T.D. H. Talamantez, who along with several other Tiger regulars relinguished regular play to the Tigers subs in the second half, was rushed in to boot the point from placement and it was Brackettville 33-LaCoste 0 as the game ended.

The Brackettville jaugernaut which is the finest array of pigskin talent to wear the Brackettville colors in many years, and in our estimation one of the best class-B elevens we have seen this season, compiled a total of 13 first downs to 4 for the Eagles; had one forward pass intercepted while they intercepted four of LaCoste's; recovered one LaCoste fumble for which the Eagles returned the favor, and were penalized three times for 35 yards to no yards penalized for the Eagles.

The Owls displayed a deadly passing attack to bury the Floresville Tigers 33-7 last week. Johnny Faseler tossed to O. J. Williams, Lloyd Lindeburg and Harold Schweers for three touchdowns, and Hondo used a bruising ground game to overpower the Tigers. The Owls tallied once in the first period, and led 20-0 at halftime. Following a scoreless third quarter, Hondo hit pay dirt twice and Floresville once in the final stanza.

The Owls nosed out the Tigers in the rushing department, 149-143, and compiled 17 first downs against 11 for Floresville. Passing yard-age for Hondo stood at 104 yards on 5 completions in 9 attempts, while the Tigers hit only 7 of 17 for 78 yards.

The victory was the thirteenth straight for Hondo, and the eighth straight of 1951.

Poteet defeated East Central 27-0 last week, paced by Tino Rivera and Leonard Lozano.

### St. Joseph's Nips St. Louis

by Gerald Kempf

CASTROVILLE-The St. Louis Comets bowed to the St. Joseph Bloodhounds of Brownsville 24 to 12. The hard-running Bloodhounds backs blasted the Comet line to shreds, rolling up 300 yards rush-

The Comets were the first to hit pay dirt in the first quarter as they sent Harold Keller across from the one yard line climaxing a short 20 yard drive resulting from a Bloodhound fumble. Bippert's try for extra point was blocked. This was all the scoring for the first half and although the Comets led 6 to 0, the Bloodhounds were out in front in first downs 6 to 2 and in yards rushing 72 yards to 41 for the Comets.

In the second half St. Joseph went wild and scored four times. The first score was the result of a Comet fumble on the 35 yard line. St. Joseph moved to the 12 from where Cantu scampered over for the tally. The extra point try failed and the score was knotted up, 6 to 6. In the closing minutes of the third period, St. Joseph's Star Halfback Noe Sanchez ripped off tackle, broke into the clear, and went 63 yards for a score. Camero, who tried to run the extra point, was stopped short of the goal and St. Joseph led, 12 to 6. The Comets came back quickly, howver, as they drove 55 yards for a T.D. Keller picked up a first down to the Brownsville 43. Charlie Haby then scampered 28 yards for a nice gain and another first down. Haby, incidentally was the outstanding Comet back with an 8+ yard average per carry. From that point Quarterback Harold Keller fired a 15 yard touchdown pass to Gerald "Red" Haby for the score. The extra point try failed and the score was tied again 12 to 12. But the heavy pounding issued the Comets by the powerful Bloodhound backs was too much as St. Joseph opened a vicious ground attack. The tie breaking score came as Tijerina went over from 15 yards out climaxing an 81 yard drive. Again the extra point failed. The Bloodhounds put the game on ice with another T.D. late in the final period as Sanchez plunged over from the four. The extra point fizzled again and the Bloodhounds had the game, 24 to 12.

### D'Hanis Cowboys Win 13th Game Without Defeat

D'HANIS—Last Saturday's win over St. Mary's of Fredericksburg gave the D'Hanis Cowboys their eighth win of the season and victory number thirteen in a row since their last defeat.

The Cowboys have completed their regular season and are waiting for the LaPryor Bulldogs to complete theirs to go into bi-district play. Neither the place nor date of the bi-district game has been determined at this time.

The Cowboy-Indian game of last week was featured by the aerial game of the D'Hanis team against a hard-running Indian attack.

### **Yancey Trounces** Utopia, 36-25

YANCEY-The Yancey Tigers showed marked improvement as they beat the Utopia Buffalos on the Devine field last Saturday night 36-25.

Utopia jumped into the lead in the first quarter when they pushed over two touchdowns in rapid succession, but the Tigers soon had their plays clicking and at the half were leading the Buffalos 18-12 and never relinquished their

Highlights of the game were Lopez' 75-yard return of a kickoff for a touchdown; Baker's 35yard dash after a pass completion of 39 yards for a touchdown and a precision-like double-pass play from Lopez to Martin to Baker that went about 60 yards for still another touchdown.

Big Chano Pedroza several times succeeded in blocking out two men at the same time. His interception of a pass followed by a runback of several yards to set up a touchdown had the spectators surging to their feet. The Ward brothers, Gordon, co-captain in his senior year, and Ross, playing the first year, turned in their best performances of the

Again thanking you for your kind words and with personal regards, we are,

We are sure the above expression of good-will and neighborliness is gratefully appreciated by the people of Hondo.

We have not always found such a spirit manifested toward our efforts to improve Hondo's road facilities.

facilities.

Too often people labor under the mistaken notion that the way to help their own community's roads is to fight the efforts of

their neighbors.

There is none of that destructive spirit in the above expressions.

On the contrary, there is a gesture of practical helpfulness in the suggestion that a signboard be placed at the intersection of 173 with 90 indicating that the former is the most accesible route to Laredo.

With the project soon to be accomplished of removing the "dead end" of 18th Street on the east by opening a thoroughfare through to the present terminus of 173 at the railroad crossing, so that travelers over that highway can cross Highway 90 and the railroad and make their ingress and egress to and from town without crowding 90 or blocking city crossings, this means of attracting attention to the advantages of travel over Highway 173 should engage the favorable consideration of all town promoters.

Whatever facilitates travel helps everybody in all communities.

### Pension Change Fought By Group

"A vote on Nov. 13 for House Joint Resolution 6, the old age assistance constitutional amendment, would do a great injustice to every needy old person in the 'State of Texas."

That is the conclusion drawn after an exhuastive analysis of the proposal by Texas Research institute, an agency devoted entirely to studies of State government.

Every needy old person now drawing old age assistance is in danger of getting a cut in his grant, or at least, he cannot expect any increase.

Athough the amendment provides an additional \$7 million from State funds for old age assistance, blind assistance and aid to dependent children, most of the additional money would be required to make grants to thousands of aliens who will become eligible if the proposed amendment is adopted.

vides that assistance may be granted to "Needy aged persons who are actual bona fide citizens of Texas..." The underscored words do NOT appear in H. J. R. 6. Instead, the proposed amendment substitutes the word "resident" for the word "citizen".

H. J. R. 6 makes it clear to all that are aliens to become eligible by using the following language: "any resident... may not be excluded who has resided in the State for five (5) years during the nine (9) years preceding the filing of the application for such assistance including the one (1) year continously immediately preceding the filing of such application;..."

If the amendment is adopted, a special session of the Legislature would be required to appropriate an additional \$7 million per year, all of which would have to come out of the pocket of Texas taxpayers.

### Cigarettes, Gas Liquor Taxes Up **Effective Nov. 1**

Taxes went up on Nov. 1, Frank Scofield, collector of internal revenue, reminded citizens in Austin this week. Increased levies on cigarettes, gasoline and liquor went into effect.

Each dealer in gasoline, except exempt retail dealers, must take an actual inventory of gasoline held for sale at the beginning of business on Nov. 1 in order that he might be able to file a correct floor stocks tax return and inventory on forms which will be provided.

A floor stock tax of 50c per thousand is imposed upon sellers of cigarettes. Each firm or individual selling cigarettes should determine the stock on hand as of Nov. 1 in order to fill out proper forms at a later date.

Liquor dealers must also have an inventory of stock on hand on Nov. 1 to pay a floor stock tax on the alcoholic beverages under the new law.

Further details may be obtained from Wilbur G. Park, deputy col-lector, box 549, Uvalde, Texas.

### The Seco Philosopher

### J. A. DOESN'T THINK COUNTRY TO SUFFER FROM OVER-SPENDING

Editor's note: The Seco Philosoper on his Johnson grass farm turns his thoughts to economics this week and we don't mind saying he knows as much about that field as any other.

Dear editar:

I was out here yesterday won-derin why I didn't fix up things around this place a little snugger earlier in the Fall before it got cold, I remember telling myself there wasn't any use shiverin through another winter, windows on the north side of the house at least could be weather-strip-ped, but while I'm convinced when it's cold the job ought to be done, when the norther plays out and things warm up, the necessity seems to dwindle away, and while I was sittin by the fire last night I noticed an article in a news-paper stickin out of the kindlin box and since I wanted to warm myself a little better anyway I moved over close enough to pick it up and read where some of the experts in Washington are afraid this country may spend itself to death.

Accordin to them, this country may push itself into economic ruin by overspendin, and one Senator says "the Russians prefer to defeat us by forcing us to spend ourselves to destruction."

Personally, 1 don't believe it can be done. We've tried it. The American people have had too many years of rugged experience in over-spendin, to ever go under from that cause. Over-spendin is what gives most people their drive to keep ahead of the installments, is what business hum. If all the complainin over Washington overspendin was limited to the folks who don't over-spend themselves, things would be fairly quiet.

Our whole economy is based on the assumption more people are gonna buy cars and radios and television sets and washin machines than can afford em. If the average man, which includes me, waited until he could afford a car, the number of unemployed fillin attendants, automobile

mechanics, gasoline dealers, new car dealers, used car dealers, etc., would put such a strain on the relief rolls Congress would never get through appropriatin enough

If you ask me, we're experts at over-spendin, and if Russian or anybody else is sittin back waitin for us to go under from that cause, they've got a long sit ahead of em. If there was ever a country which has mastered the art of spendin more than you make, this is it. I don't know how it's done, but I'm sure in favor of it myself. Renew my subscription to your paper and I'll pay you when I get around to it.

Yours faithfully, J. A.

A Message of Importance \* \* \* To Every Automobile Driver \* \* \* In The State of Texas

# HERE'S WHAT YOU SHOULD KNOW ABOUT THE NEW TEXAS "SAFETY RESPONSIBILITY LAY

- Enforcement Begins January 1, 1952. On this date, the new Safety Responsibility Law, as passed by the Legislature, goes into effect. This law was designed to protect you against financially irresponsible drivers and owners of motor vehicles involved in accidents. It affects all drivers and motor vehicle owners (except Federal, State, County and City-owned cars).
- What Must You Do After An Accident? Under existing laws, you must file a written report to the Department of Public Safety if your car is involved in an accident where there is a death, an injury or property damage in excess of \$25. Under the new law, a written report must be filed within ten days if your car is in an accident resulting in death, injury or property damage in excess of \$100.
- You Don't Have to Carry Liability Insurance, But . . . If you are not insured against bodily injury and property damage liability, you must be able to deposit with the Department of Public Safety security equal to the estimated damage, not exceeding \$15,000.00, to cover all claims growing out of an accident anywhere in Texas in which you or your motor vehicle were involved. If you cannot establish financial responsibility for the future, your driver's license and your motor vehicle license plates are automatically suspended.
- It's Easy to Establish Financial Responsibility with a motor vehicle liability insurance policy. If you do not now have such a policy, call your local insurance agent today. He is a qualified insurance counselor who will be happy to advise you concerning your needs.
- What is the Minimum of Your Liability? The law permits each driver to establish the following minimum limits of liability: up to \$5,000.00 for injuries sustained by one person; up to \$10,000.00 for all personal injuries resulting from one accident, and up to \$5,000.00 for property damage. You do not have to establish such liability but it is the easiest way.
- 6 Select an established insurance agent. The agents listed below know the insurance

business and represent well-known dependable capital stock insurance companies. These agents are not of the kind that are here today and gone tomo rrow. Their names are listed in the telephone directory. A telephone call will find them ready to serve you—not only NOW—but YEARS from now. Call the one of your choice.

Remember when commercial aviation was trying out its wings? In those days both passenger and pilot wore coveralls, helmets, goggles and parachutes. And oftentimes a traveler found himself bounced by a sack of mail.

But things are different now. No longer is air travel just for the rugged individual. It's a standard means of getting from one place to another.

Your community has changed, too, since flying's good old days. Schools are better, so are medical and recreational facilities, and living conditions in general.

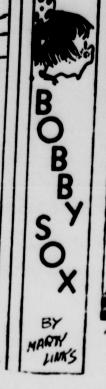

Of course, improvements like these aren't automatic. They are made because people want them and are willing to work for them.

But people alone don't make a better community. People working together do. That's where your chamber of commerce comes in. It's the rallying point for those who want a hand in shaping the good old days of tomorrow.

How about you? Are you ready to pitch in? If so, your chamber of commerce executives will tell you about membership.

### **Observe 4-H** Week Nov. 3-11

The accomplishments of Texas 4-H club boys and girls was recognized and honored during the observance of the 1951 National 4-H Club Achievement Week, Nov.

In their efforts to meet the challenge of the 1951 4-H theme, "Working Together for World Understanding," 4-H members have worked to learn something about the cultures, contributions and problems of rural people in other countries.

In 1950, 118,237 boys and girls between 10 and 21 years of age were enrolled in 4,793 Texas H-4 clubs Floyd Lynch, state 4-H leader estimates the enrollment to be about the same during 1951.

Youth from 67,732 farm homes and 21,146 non-farm homes participated in 4-H club work last year. Valuable contributions to community improvement were made by 2,308 4-H clubs in Texas.

In addition to regular demonstrations, Texas 4-H boys and girls received training in fire and accident prevention, forestry, health, recreation and leadership, wildlife conservation and other worthwhile activities, reports Lynch.

COYOTE TRAPPED—This is the way ranchers like to see the coyote a constant threat of livestock and poultry-in a steel trap. This one was trapped last week by A. J. Graff about three miles east of Hondo in his pasture adjoining Highway 173.

Graff can be considered an expert at coyote trapping; he got two in August, one in September and one in October. Using a number two trap, he has been successful in trapping the animals, preparing his own bait.

Bottom picture shows Graff and Billy Totsavich with a timber wolf shot by Graff's son, Ralph. Billy, who lives at Miss Emma Graff's in Hondo, is from Massachusetts, and proudly sent this picture back home to show to folks up there.

THE PARTY LINE

The senior class mothers, Mrs. Harold Richter, Mr. and Mrs. H. R. Burch, and Mrs. Millie Eckhart gave a Hallowe'en party for the class at Mrs. Eckhart's home last Saturday night. Guests bobbed for apples and had other games of equal interest. The refreshments were hot dogs roasted over the fire, marshmallows,

potato saiad and punch.

Mr. and Mrs. C. S. Cash from
Sanderson and Mrs. W. P. Riley
were guests of Mrs. Bob Zerr over the weekend. Mrs. Riley, who is Mrs. Zerr's mother, is returning from a three week visit with the Cash family in Sanderson.

### Story With A Moral; Better To Do Business With Home Folks

Last week a farmer nearly lost his shirt, a for the amount, or at least part of it, that he got \$300 one, when a traveling bunch of cesspool cleaners tried to give him a cleaning, too.

To those familiar with the tactics of most roving "businessmen," the pattern will sound

This group descended on the man's farm, after they'd heard mention of the fact that his cesspool needed cleaning. While the farmer was gone, they went ahead and did the job.

The bill was something over \$300 for a job that would ordinarily cost maybe \$50. The farmer balked at that sort of payment, particularly since the men had not been formally requested to do the job at all. But then the group threatened bodily harm unless he came across with the money, and it was only by giving them a check

The moral of the story is a familiar one: Do business in your home town. If you do get taken, at least the money will stay at home.

This is a good season for the "roving applicator"-the man who can put a new siding or a roof on your home in a jiffy, the magazine salesman, and like the case we just mentioned, the group that cleans cesspools. If they offer what seems like an attractive price, call your local merchant or businessman, you'll be surprised how little difference there is for the same type of merchandise or service.

**Married Men Face Draft If** Status Unknown

AUSTIN, Texas, Nov. 2-A young married man at Port Arther must leave his wife, who is expecting their first child, for service in the armed forces because he didn't notify his draft board at Orange before he was mailed his order to report for induction.

Regulations promulgated under amendments to the draft law, passed last June by Congress, require that a draft registrant with an unborn child be deferred if he files with his board prior to the time his induction order is mailed the certificate of a licensed physician that the child has been conceived.

"This is the first case under this phase of the regulations to come to our attention." Brig. Gen. Paul L. Wakefield, state Selective Service director, commented. "It's just another case where a man has slept on his rights. Congress has made it the personal responsibility of every man to notify his board of changes in his status immediately.

State draft headquarters said that the Port Arthur registrant did not notify his board when he got married and did not furnish the doctor's certificate when his wife became pregnant, either before or after being notified that his classification had been changed from III-A to I-A.

He did not act until after he received the induction order of the Orange board, which, under the law, is too late.

"This man would never have been classified from III-A to I-A if he had seen that the doctor's certificate got in his file immediately after his wife was found pregnant by the doctor," Wakefield declared.

AUSTIN, November 5-Public Safety Director Homer Garrison Jr., reminded Texas motorists that their licenses to own or oper-

ate an automobile will be suspended if they are involved in a traffic accident and fail to meet damage claims up to \$15,000 when the state's new Motor Vehicle Safety Responsibility Law becomes effective on January 1.

Declaring it "will greatly affect the personal safety and economic security of every man, woman and child in the state." Director Garrison gave the public its first official analysis of the new law since its adoption by the last session of the legislature. He spoke from Austin over a state-wide radio network and announced that during the next two months the Texas Department of Public Safety will fully acquaint the people with the purposes and requirements of the law through the press and radio and by means of an official leaflet that may be obtained at any

service station. Director Garrison pointed to the rapidly increasing number of traffic accidents and public indignation over the failure of motor vehicle owners and operators to pay for the damage they cause through negligence as the reasons that prompted the legislature to enact the law, which closely follows safety responsibility statu-tes in 34 other states. He declared the law's primary objectives were to deny all motoring privileges to owners or operators who do not meet just damage claims resulting from accidents and to put chronic accidents causers off of the highways permanently.

In a carefully summarized ex-planation of the law's principal features, Director Garrison ex-

plained its operation as follows: The operator of every motor vehicle that is involved in an accident resulting in death or in-

The regular accident report must be filed within 24 hours, but motorists have up to 10 days to file the new report form. Both reports are mandatory regardless of who caused the ac-

**NEW MOTOR RESPONSIBILITY LAW** 

The law does not apply, except with respect to filing the new report form, to insured owners or operators, provided the insurance covers possible damage claims resulting from a traffic accident, up to \$15,000. Uninsured motorists will receive a notice from the Texas Department of Public Safety that they must deposit sufficient security to cover the damage they caused, as determined by the Department. This may range anywhere from \$101 to \$15,000, and the collateral may be in the form of cash or negotiable securities. The deposit must be made with the Department within a maximum of 60 days after the accident report was filed.

An uninsured motorist will not be required to deposit security, however, if he files satisfactory evidence, within the 60-day per-iod, that he has been released from liability, been finally adjudicated not to be liable, executed a duly acknowledged written agreement to pay damage claims up to \$15,000, or that his motor vehicle was legally parked or was being operated without his permission at the time of the accident.

Should an uninsured motorist fail to meet any of these require-ments within 60 days after filing his accident report, both his op-erator's license and registration of ownership will be suspended until he does or until a year has elapsed without court action for damages being filed. Suspension of registration will apply to all cars owned by the defaulting mo-

### **Hunters Should Use Caution In Handling Firearms**

As the hunting season gets underway Dr. Geo. W. Cox, state health officer, urges caution in handling firearms. More than 160 Texans were killed in 1950 as a result of carelessness in handling guns. At a time like this it is more than ever important that we should conserve human life whenever possible.

"It is not enough to deplore the waste of human lives caused by the careless handling of firearms, asserts Dr. Cox, "we should learn from the deaths of these victims the lessons of safety which will prevent this needless and shocking waste. With the price of meat at the present high level there is a possibility of more hunters go-ing into the field than ever be-

The State Department of Health gives the following safety sugges-

tions in handling guns: While hunting to be sure that the loaded gun is on safety un-

til ready to fire. Never shoot without seeing your target clearly. Never crawl through a fence

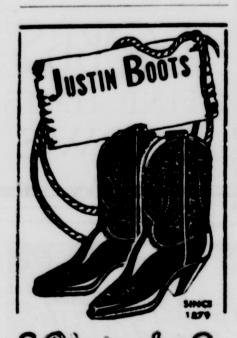

carrying a gun. If hunting with a companion

stay close to him. Do not strike the ground or a wounded animal with the butt of a loaded gun.

Never scuffle while holding a loaded gun or point it at a person "for fun"

Always unload a gun before attempting to clean it.

Always unload guns before taking them into camp or house.
All guns should be carefully put away in the home out of reach of small children.

### "Talks Turkey" -Long Distance

From where I sit ... by Joe Marsh

Some people chuckled when Sonny Fisher rented a home recording machine to record the noise his flock of turkeys make.

"I sent the recording to a buyer for a super-market chain," Sonny said. "I told them 'My turkeys speak for themselves-listen to this record!' They not only took my birds, but bought the record!"

"Why did they want the record?" I asked him. "Very simple," he says. "They're going to play it over the loud speakers in their stores and then an announcer on another record reminds the customers that turkeys are plentiful and a good buy."

From where I sit, it's not always smart to make fun of someone just because he does things a little differently. I think a glass of beer is the most refreshing beverage there is. You - or Sonny - may prefer something else. But who's to decide one's right and the other's wrong? Let's stay "on record" that everyone's entitled to his own tastes and opinion.

# It has a Way with Women

COMETIMES we think that too little attention is given to the fair sex in automobile advertising.

After all, it's the woman of the house who has to do most of the shopping, which involves getting into tight places at the curb. And it's surprising what tight spots a Buick can fit into at a turn of the wheel.

It's the woman who likes complete freedom from things that it takes an engineer to operate - and a complete and utter freedom from

It's the woman who has an eye for style and fine fabrics — and a nose for economy. On both counts, a Buick is tops.

But we suspect something else. We suspect that a woman gets just as great a lift as a man from commanding this great-powered and trigger-quick bundle of vitality to bow to her will.

Here's a car to win any woman's
